PLEASE NOTE:*

- *Proof NOT FOR COLOUR MATCHING. Refer to Pantone references . Please note there may be some colour variation .
- * The Eyemark will print somewhere on the bag and not always in the position shown on the Proof
- * Where different colours touch, they will darken and form a darker keyline
- * Tone will always come out as a coarser dot and less refined when printed onto a bag
- * The print position may vary from one side to the other due to manufacturing tolerance
- * Print on CMYK/Digitally printed bags is more prone to issues due to creasing of film
